

AOK interiors

## Who we are

We believe a home should be more than designed.  
It should be felt.

At AOK, we honor the art of making. We celebrate the hands, histories, and traditions behind one-of-a-kind objects, and place them at the center of the spaces we create. Artisans are not an afterthought—they are the beginning.

We believe true luxury is personal, and that originality cannot be replicated. Every AOK space is shaped through collaboration—between artist, designer, and client—guided by curiosity, trust, and intention. Under the creative leadership of Troy Halterman, we transform handcrafted art and objects into layered interiors that feel soulful, expressive, and quietly extraordinary.

## What we do

We design with reverence for craftsmanship and integrity in execution. We value quality over quantity, meaning over trend, and emotion over excess. Each decision is deliberate, each element chosen to create harmony, depth, and a sense of wonder.

We envision homes as living works of art—environments alive with creativity, human connection, and enduring beauty. Spaces that evolve, inspire, and reflect the individuality of those who inhabit them.

This is design with soul.

This is craftsmanship elevated.

This is AOK.
